Hatria, azienda presente sul mercato dagli anni '70, è specializzata nella produzione di sanitari in ceramica di forme e tipologie diverse, dal design innovativo e rigorosamente Made in Italy. L'utilizzo di materie prime purissime, una prototipazione accurata e rigorosa, la gestione di tutte le fasi del processo produttivo, sono supportate da una solida tradizione ceramica, da un "saper fare" che nel tempo si è affiancato a sempre più sofisticate tecnologie.

L'avanzatissimo impianto di produzione automatico sito a Teramo (Italy), base per lo sviluppo di una gamma completa di prodotti che rispondono alle rinnovate esigenze del bagno contemporaneo.

Hatria has been operating since the 1970s and specialises in the production of various types and sizes of ceramic bathroom fittings, with an innovative, 100% Italian design and craftsmanship. The use of extra-pure raw materials, a painstaking, rigorous prototyping process and the management of all stages of the production process are supported by a solid ceramic tradition and craftsmanship skills that over the years have been aided by increasingly sophisticated technologies. The cutting-edge automated production plant located in Teramo (Italy) is the base for the development of a complete range of products able to meet the evolving needs of the contemporary bathroom.

Hatria ist seit den 70er Jahren auf dem Markt präsent und auf die Herstellung von Sanitärkeramik in verschiedenen Formen und Typen, mit innovativem Design und aus strikt italienischer Herstellung, spezialisiert. Die Verwendung von reinsten Rohstoffen, ein akkurates und rigoroses Prototyping, die Kontrolle aller Phasen des Produktionsprozesses, werden von einer soliden Erfahrung im Bereich der Keramik unterstützt, von einem „Know-how“, das im Laufe der Zeit mit immer ausgefeilteren Technologien kombiniert wurde. In der hochmodernen automatisierten Produktionsstätte in Teramo (Italien) wird eine komplette Produktpalette entwickelt, die den gewachsenen Anforderungen an das moderne Bad gerecht wird.

L'entreprise Hatria, présente sur le marché depuis les années 70, est spécialisée dans la production de sanitaires en céramique de formes et types différents, au design innovant, rigoureusement fabriqués en Italie. L'utilisation de matières premières d'une grande pureté, la conception de prototypes soignés dans les moindres détails, la gestion de toutes les phases du processus de production, sont soutenues par une solide tradition céramique. Un savoir-faire qui, au fil du temps, a été associé à des technologies toujours plus avancées. Le site de production automatisé et ultra moderne de Teramo (Italie) permet le développement d'une gamme complète de produits qui répondent aux nouvelles exigences de la salle de bain contemporaine.

Hatria opera in una direzione sostenibile attraverso la riduzione delle fonti energetiche in tutte le fasi del processo produttivo e l'eliminazione dell'impiego di energia per il riscaldamento, insieme a nuove soluzioni che permettono un risparmio nel consumo d'acqua durante l'utilizzo del sanitario. La certificazione del Sistema Qualità Hatria da parte del Certiquality-Certichim, secondo la norma UNI-EN-ISO 9001:2008, è un'ulteriore passo volto a garantire la massima performance dei nostri prodotti. Funzionalità e semplicità d'uso vanno di pari passo con la ricerca di un design raffinato firmato da designers internazionali quali Francesco Lucchese, Dal Lago Associati, Antonio Bullo, Nilo Gioacchini, Federico Sandri e Daniel Debiassi, Mario Alessiani.

Hatria places the accent on eco-sustainable production, by reducing the energy used at all stages of the process and eliminating the use of energy for heating, as well as adopting new solutions to save on the water used by the bathroom fittings. The certification of the Hatria Quality System on the part of Certiquality-Certichim, in accordance with the UNI-EN-ISO 9001:2008 standard, is a further step towards guaranteeing top product performance. Practical and user-friendly, with a sophisticated design by international names such as Francesco Lucchese, Dal Lago Associati, Antonio Bullo, Nilo Gioacchini, Federico Sandri and Daniel Debiassi, Mario Alessiani.

Für Hatria ist Nachhaltigkeit ein wichtiges Anliegen, erreicht wird dies durch Energieeinsparung auf allen Stufen des Produktionsprozesses, für die Heizung wird keine Energie verbraucht und es werden neue Lösungen entwickelt, die Einsparungen beim Wasserverbrauch bei der Nutzung von Sanitärtechnik im Bad ermöglichen. Die Zertifizierung des Qualitätsmanagementsystems von Hatria durch Certiquality-Certichim gemäß Norm UNI-EN-ISO 9001:2008 ist ein weiterer Schritt, um zu garantieren, dass unsere Produkte die beste Leistung bieten. Funktionalität und Einfachheit der Bedienung gehen Hand in Hand mit der Entwicklung eines raffinierten Designs, das von internationalen Designern wie Francesco Lucchese, Dal Lago Associati, Antonio Bullo, Nilo Gioacchini, Federico Sandri und Daniel Debiassi sowie Mario Alessiani gestaltet wurde.

Hatria a adopté des principes de durabilité à travers la réduction de la consommation d'énergie dans chaque phase du processus de production, l'élimination de l'utilisation d'énergie pour le chauffage et de nouvelles solutions d'économie d'eau dans les sanitaires. La certification du Système Qualité de conformité à la norme UNI-EN-ISO 9001:2008, que le Certiquality-Certichim a remise à Hatria, est un gage supplémentaire de l'excellence de nos produits. Fonctionnalité et simplicité d'utilisation vont de pair avec la recherche d'un design raffiné signé par des designers de renommée internationale tels que Francesco Lucchese, Dal Lago Associati, Antonio Bullo, Nilo Gioacchini, Federico Sandri, Daniel Debiassi et Mario Alessiani.

Hatria produce de forma sostenible a través de la reducción de las fuentes de energía en todas las fases del proceso de producción y la eliminación del uso de la energía para la calefacción, junto con nuevas soluciones que permiten un ahorro en el consumo de agua sanitaria. La certificación del Sistema de Calidad de Hatria por parte de Certiquality-Certichim, según la norma UNI-EN-ISO 9001:2008, es otro paso adelante destinado a garantizar el rendimiento máximo de nuestros productos. La funcionalidad y la simplicidad de uso van de la mano con la búsqueda de un diseño refinado firmado por diseñadores de fama internacional como Francesco Lucchese, Dal Lago Associati, Antonio Bullo, Nilo Gioacchini, Federico Sandri y Daniel Debiassi, Mario Alessiani.

Компания Hatria демонстрирует ответственное отношение к окружающей среде посредством сокращения потребления энергии на всех этапах производственного процесса и отказа от использования электроэнергии для отопления, а также посредством внедрения новых решений, позволяющих экономить расход воды при пользовании сантехникой. Сертификация Системы Качества Hatria на соответствие требованиям стандартов UNI-EN-ISO 9001:2008, проведенная Институтом Certiquality-Certichim, – это дальнейший шаг, направленный на обеспечение максимально высокого качества нашей продукции. Функциональность и простота дополняются разработкой изысканного дизайна с участием таких известных дизайнеров, как Франческо Луккеше, студии Dal Lago Associati, Антонио Булло, Нило Джоаккини, Федерико Сандри и Даниэла Дебиаси, а также Марио Алессиани.

I nuovi vasi rimless NEXT, BIANCA, FUSION, LE FIABE, BEAT di Hatria grazie al sistema di risciacquo con bordo a vista, utilizzando soltanto una piccola quantità d'acqua, non presentano zone di deposito sporco e formazione di batteri. La pulizia del sanitario risulta così estremamente semplice e veloce.

Realizzati secondo un concetto innovativo del sistema di scarico, per facilitare le operazioni di pulizia e manutenzione, questi vasi sospesi in ceramica senza brida mantengono comunque invariate le caratteristiche di installazione dei tradizionali vasi. Lo scarico ed una perfetta pulizia sono garantiti con soli 4,5/3 litri d'acqua.

The new Hatria rimless WCs NEXT, BIANCA, FUSION, LE FIABE, BEAT flushing systems come with visible edges and use only a small amount of water, leaving no space for dirt and bacteria to form. This makes it extremely quick and easy to clean. Designed with an innovative flushing system that facilitates cleaning and maintenance, these ceramic wall hung rimless WCs are in any case installed in the same way as conventional WCs. Flushing and perfect cleaning are assured with just 4.5/3 litres of water.

Die neuen Klosetts rimless NEXT, BIANCA, FUSION, LE FIABE, BEAT von Hatria benötigen dank des Spülsystems mit sichtbarem Rand nur eine geringe Wassermenge, lagern keinen Schmutz ab und fördern die Bakterienbildung nicht. Die Reinigung der Sanitäranlage ist daher extrem einfach und schnell. Diese nach einem innovativen Spülanlagenkonzept, das die Reinigung und Wartung erleichtert, produzierten spülrandlosen wandhängenden Klosetts aus Keramik behalten in jedem Fall die Installationseigenschaften von traditionellen Klosetts bei. Die Spülung und eine perfekte Reinigung werden mit nur 4,5/3 Litern Wasser gewährleistet.

Grâce au système de rinçage à bride ouverte qui ne consomme qu'un petit volume d'eau, dans les nouvelles cuvettes rimless Hatria NEXT, BIANCA, FUSION, LE FIABE, BEAT, les salissures ne forment plus de dépôt, de sorte que les bactéries ne peuvent plus s'y loger. La cuvette est ainsi plus facile et plus rapide à nettoyer. Dotées de cette technique de rinçage innovante qui facilite les opérations de nettoyage et d'entretien, ces cuvettes suspendues sans bride s'installent exactement comme des cuvettes traditionnelles. L'efficacité du rinçage et une propreté parfaite sont assurées avec 4,5/3 litres d'eau seulement.

Gracias al sistema de lavado con borde accesible, los nuevos inodoros rimless NEXT, BIANCA, FUSION, LE FIABE, BEAT de Hatria no presentan zonas de depósito de suciedad ni formación de bacterias con solo usarse un poco de agua. La limpieza del inodoro resulta por tanto extremadamente simple y rápida. Hechos según un concepto innovador del conducto de desagüe, para facilitar las operaciones de limpieza y mantenimiento, estos inodoros suspendidos en cerámica sin canal de lavado mantienen igualmente todas las características de instalación de los inodoros tradicionales. El desagüe y una perfecta limpieza se garantizan con solo 4,5/3 litros de agua.

Новые унитазы rimless NEXT, BIANCA, FUSION, LE FIABE, BEAT производства Hatria, благодаря системе ополаскивания с открытым бортиком, используют минимальное количество воды и препятствуют образованию грязных отложений и формированию бактерий. Уборка такой сантехники становится исключительно простой и быстрой. Изготовленные по инновационной концепции системы слива, что существенно облегчает их очистку и содержание, эти керамические подвесные унитазы без бортика сохраняют неизменными монтажные характеристики традиционных унитазов. Слив и абсолютная чистота обеспечиваются всего лишь 4,5/3 литрами воды.

Alchemy è un innovativo e tecnologico trattamento delle superfici ceramiche che dona ai sanitari brillantezza unica, massima resistenza ed inattaccabilità. Pensato per garantire igiene e durata nel tempo, Alchemy si associa a nuove forme dal design esclusivo, rese possibili da un impasto di proprietà esclusiva Hatria, che coniuga un alto valore estetico a un significativo rispetto per l'ambiente. Alchemy prende forma e si completa grazie allo studio di un impasto speciale, che consente un design dagli spessori sottilissimi. L'evoluzione di un design contemporaneo, elegante e ricercato unito comunque ad un'inalterata resistenza della ceramica, si traduce nella nuova collezione di lavabi Happy Hour Slim. Alchemy allarga la sua proposta anche alla collezione di sanitari Fusion. Happy Hour Slim e Fusion, un equilibrio perfetto di forme e contenuti.

Alchemy is an innovative, high-tech treatment for finishing ceramic surfaces that gives sanitary fixtures a unique shine and unbeatable toughness, with resistance to microbes and deposits. Conceived to guarantee hygiene and durability, Alchemy combines with new, exclusively styled forms made possible by a Hatria proprietary body mix, which delivers outstanding aesthetic values together with significant environmental benefits. Alchemy takes shape and is completed thanks to the development of a special body mix, allowing the slenderest of designs. The evolution of contemporary, elegant, sophisticated design without any reduction in the strength of the ceramic material gives us the new Happy Hour Slim collection of washbasins. Alchemy extends its reach to include the Fusion sanitary fixture collection. Happy Hour Slim and Fusion, the perfect balance between forms and contents.

Alchemy ist eine innovative Veredelung keramischer Oberflächen, die den Sanitärartikeln einzigartige Brillanz sowie höchste Beständigkeit und Widerstandsfähigkeit verleiht. Konzipiert für Hygiene und Langlebigkeit, kommt Alchemy in einer neuen, geschmackvollen Formensprache zum Ausdruck. Dies ist der exklusiven Keramikmasse von Hatria zu verdanken, die hohe Ansprüche in Bezug auf Ästhetik und Nachhaltigkeit erfüllt. Dank der Entwicklung einer besonderen Keramikmasse, die extrem dünne Wandstärken ermöglicht, zeigt sich Alchemy in vollendeter Form. Das moderne Design von formvollendeter Eleganz und die dauerhafte Beständigkeit der Keramik sind die überzeugenden Merkmale der neuen Waschtisch-Kollektion Happy Hour Slim. Alchemy erstreckt sich auch auf die Sanitärkollektion Fusion. Happy Hour Slim und Fusion, eine perfekte Balance aus Formvollendung und Funktionalität.

Alchemy est un tout nouveau traitement révolutionnaire pour les surfaces céramiques. Avec lui, les sanitaires brillent d'un éclat unique et ils garantissent une solidité maximale et une résistance totale. Mis au point pour garantir hygiène et durabilité, Alchemy épouse des formes nouvelles et exclusives, pétries à partir d'une pâte qui est la propriété exclusive de Hatria, en mesure de conjuguer esthétique supérieure et respect profond pour l'environnement. Alchemy prend corps et se complète par la mise au point d'une pâte spéciale qui permet d'élaborer des formes extrêmement fines. La nouvelle collection de lavabos Happy Hour Slim résume l'évolution d'un design contemporain, élégant et raffiné, auquel s'ajoute la résistance exceptionnelle de la céramique. Alchemy s'applique aussi à la collection de sanitaires Fusion. Happy Hour Slim et Fusion, un parfait équilibre entre formes et contenus.

Alchemy es un tratamiento de las superficies cerámicas innovador y tecnológico que confiere un brillo único a los sanitarios, así como máxima resistencia e invulnerabilidad. Pensado para garantizar higiene y durabilidad, Alchemy se asocia a nuevas formas de diseño exclusivo, hechas posibles gracias a una masa, propiedad exclusiva de Hatria, que conjuga un alto valor estético con un significativo respeto medioambiental. Alchemy toma forma y se completa gracias al estudio de una pasta especial que permite un diseño de grosores muy reducidos. La evolución de un diseño contemporáneo, elegante y sofisticado, sumado a la inalterada resistencia de la cerámica, se traduce en la nueva colección de lavabos Happy Hour Slim. Alchemy amplía su propuesta a la colección de sanitarios Fusion. Happy Hour Slim y Fusion, un perfecto equilibrio de formas y contenidos.

Alchemy - это инновационная технологическая обработка керамических поверхностей, наделяющая сантехнику уникальным блеском, максимальной прочностью и стойкостью. Обработка Alchemy была создана для обеспечения гигиены и долговечности. Она сочетается с новыми эксклюзивными дизайнерскими формами, полученными благодаря смеси, являющейся эксклюзивной разработкой компании Hatria и объединяющей престижную эстетику с высоким уважением к природе. Alchemy приобретает форму и пополняется разработкой специальной смеси для дизайна моделей с очень тонкими стенками. Эволюция современного элегантного и изысканного дизайна в сочетании с прочностью и неизменностью керамики заложена в основу новой коллекции умывальников Happy Hour Slim. Alchemy расширяет свою сферу применения, включая также коллекцию сантехники Fusion. Happy Hour Slim и Fusion - отличное равновесие форм и содержания.

Il nuovo smalto di base, che aiuta a isolare la superficie da microbi e batteri, viene applicato all'intera gamma prodotti di Hatria, migliorandone la qualità e ponendo attenzione all'esigenza sempre più elevata in materia di prevenzione e salute, con la garanzia di una maggiore igiene e sicurezza all'interno di ogni ambiente bagno.

PIU' IGIENE, QUALITÀ E PREVENZIONE

The new base glaze, which helps keep microbes and bacteria away from the surface, is applied to the entire Hatria product range, improving quality and placing the accent on the increasing importance of prevention and safeguarding health, guaranteeing better hygiene and safety in every bathroom.

BETTER HYGIENE, QUALITY AND PREVENTION

Der neue Basislack, der die Oberfläche gegen Mikroben und Bakterien schützt, wird jetzt für die gesamte Produktpalette von Hatria verwendet, dadurch wird die Qualität verbessert und dem immer größer werdenden Bedürfnis nach Prävention und Gesundheit besondere Beachtung geschenkt, mit der Garantie für mehr Hygiene und Sicherheit in jedem Badezimmer.

MEHR HYGIENE, QUALITÄT UND PRÄVENTION

Le nouvel émail de base, qui contribue à protéger la surface des microbes et des bactéries, est appliqué sur l'ensemble de la gamme des produits Hatria. Il améliore leur qualité et répond aux exigences toujours plus élevées en matière de prévention et de santé, avec la garantie d'une hygiène et d'une sécurité accrues à l'intérieur de chaque salle de bain.

PLUS D'HYGIÈNE, PLUS DE QUALITÉ ET PLUS DE PRÉVENTION

El nuevo esmalte base, que ayuda a aislar la superficie de microbios y bacterias, se aplica a toda la gama de productos de Hatria, mejora la calidad y responde a la necesidad cada vez mayor en materia de prevención y salud, con la garantía de higiene y seguridad en el cuarto de baño.

MÁS HIGIENE, CALIDAD Y PREVENCIÓN

Новая эмалевая грунтовка, позволяющая защитить поверхности от скопления микробов и бактерий, наносится на изделия всего ассортимента сантехники Hatria, что повышает их качество и позволяет соблюдать постоянно растущие требования по профилактике и защите здоровья, обеспечивая более высокий уровень гигиены и безопасности в каждом помещении ванной комнаты.

SUPERFICI SEMPRE BRILLANTI, INATTACCABILI E SEMPLICI DA PULIRE

L'aggiunta di cristallina anticalcare negli smalti dona alla superficie ceramica un effetto brillante e lucente, ineguagliabile. Alchemy garantisce grande resistenza ai depositi e all'adesione di calcare, a vantaggio della pulizia che risulta più semplice ed eco sostenibile.

EASY-CLEAN SURFACES, RESISTANT TO DEPOSITS AND WITH A CONSTANT SHINE

The addition of anti-limescale frit to glazes creates a uniquely bright, shiny ceramic surface. Alchemy guarantees outstanding resistance to limescale and other deposits, making cleaning easier and more environment-friendly.

IMMER BRILLANTE, BESTÄNDIGE UND REINIGUNGSFREUNDLICHE OBERFLÄCHEN

Der Zusatz von kalkabweisendem Kristallin in den Glasuren verleiht der keramischen Oberfläche eine einzigartige Brillanz. Alchemy gewährleistet eine hohe Beständigkeit gegenüber der Anhaftung und Ablagerung von Kalk, was den der Reinigungsaufwand mindert – zum Schutz der Umwelt.

DES SURFACES TOUJOURS BRILLANTES, ULTRA RÉSISTANTES ET SIMPLES À NETTOYER

Une fritte anticalcaire est incorporée à l'émail pour donner à la surface céramique une brillance et un éclat sans pareils. Alchemy protège la surface contre les dépôts et les accumulations de calcaire. Le nettoyage est alors plus simple et plus écologique.

SUPERFICIES SIEMPRE BRILLANTES, INVULNERABLES Y FÁCILES DE LIMPIAR

La añadidura de partículas cristalinas antical a los esmaltes otorga a la superficie cerámica un efecto brillante y luminoso inigualable. Alchemy garantiza una gran resistencia a depósitos e incrustaciones de cal, en beneficio de la limpieza, que de este modo resulta más sencilla y ecosostenible.

ВСЕГДА БЛЕСТЯЩИЕ, СТОЙКИЕ ПОВЕРХНОСТИ, КОТОРЫЕ ЛЕГКО ЧИСТЯТСЯ

Добавка в глазурь прозрачного компонента, защищающего от известкового налета, наделяет керамическую поверхность бесподобным блеском. Alchemy гарантирует большую устойчивость к скоплению и отложению известкового налета, обеспечивая более легкую и экологичную очистку.

MASSIMA RESISTENZA, GARANZIA DI DURATA NEL TEMPO

Tecnologie ricercate ed applicate al prodotto determinano qualità e resistenza. Alchemy offre caratteristiche davvero uniche, le superfici diventano difficili da graffiare o segnare, scalfire o rovinare. Qualsiasi macchia o segno è facilmente ripristinabile. Inalterabile nel tempo.

MAXIMUM STRENGTH, GUARANTEED DURABILITY

Sophisticated technologies applied to the product to ensure its quality and strength. Alchemy offers truly unique characteristics; surfaces become highly resistant to scratches, marks, chips or damage. Any stain or mark can easily be removed. Immune to time.

HÖCHSTE BESTÄNDIGKEIT, GARANTIERTE LANGLEBIGKEIT

Ausgefeilte Technologien sorgen für Qualität und Beständigkeit. Alchemy bietet wirklich einzigartige Eigenschaften, da die Oberflächen unempfindlicher gegen Kratzer, Spuren, Schrammen oder Beschädigungen werden. Flecken oder Spuren lassen sich somit leicht entfernen. Dauerhaft beständig.

UNE RÉSISTANCE MAXIMALE, UNE GARANTIE DE DURABILITÉ

La sophistication des technologies dote le produit d'une grande qualité et d'une grande résistance. Alchemy apporte des caractéristiques vraiment exceptionnelles : les surfaces sont difficiles à érafler, à rayer, à marquer ou à abîmer. Les taches ou traces sont très faciles à éliminer. Inaltérable dans le temps.

MÁXIMA RESISTENCIA, GARANTÍA DE DURABILIDAD

La sofisticada tecnología aplicada al producto determina calidad y resistencia. Alchemy brinda unas características verdaderamente únicas que hacen que las superficies resulten de lo más resistentes a sufrir arañazos, señales y rayas, así como al deterioro. Las manchas o señales se borran fácilmente. Inalterable frente al paso del tiempo.

МАКСИМАЛЬНАЯ ПРОЧНОСТЬ - ГАРАНТИЯ ДОЛГОВЕЧНОСТИ

Передовые технологии, применяемые к продукции, обеспечивают ее качество и прочность. Alchemy предлагает на самом деле уникальные характеристики, благодаря которым поверхности надежно защищены от царапин, отметин, повреждений и порчи. Любое пятно или след можно легко устранить. Неизменность с течением времени.

ВОДООТТАЛКИВАЕМОСТЬ

PROPRIETÀ AUTOPULENTE, FACILE MANUTENZIONE

Il risultato di questi speciali benefici tecnici avviene anche grazie ad un particolare trattamento idrofugo applicato allo smalto. Alchemy ha un effetto sorprendente sulla superficie, permettendo all'acqua e alle gocce di scivolare più agevolmente, evitandone l'accumulo e il ristagno (effetto loto).

SELF-CLEANING PROPERTIES, EASY CARE

The results of these specific technical benefits are thanks in part to a special water-repellent treatment applied to the glaze. Alchemy has a surprising effect on the surface, enabling water and droplets to slip off it more easily, preventing them from building up or stagnating (lotus effect).

SELBSTREINIGUNG, REINIGUNGSFREUNDLICHKEIT

Diese speziellen technischen Vorzüge werden auch dank einer besonderen Veredelung der Glasur zur Geltung, die der Oberfläche wasserabstoßende Eigenschaften verleiht. Alchemy hat eine verblüffende Wirkung auf die Oberfläche. Das Wasser und die Tropfen können leichter abperlen, wodurch eine ständige Benetzung verhindert wird (Lotuseffekt).

QUALITÉS AUTONETTOYANTES, ENTRETIEN FACILE

Ces avantages techniques particuliers se basent sur le traitement d'étanchéité appliqué à l'émail. Alchemy laisse sur la surface un effet surprenant. L'eau et les gouttes glissent plus facilement, évitant ainsi les accumulations et les stagnations (effet lotus).

PROPIEDADES AUTOLIMPIADORAS, FÁCIL MANTENIMIENTO

El resultado de estas ventajas técnicas se logra asimismo gracias al tratamiento impermeable especial que se le da al esmalte. Alchemy tiene un efecto sorprendente sobre la superficie, permite que el agua y las gotas resbalen más fácilmente, evitando que se acumulen y se estancuen (efecto loto).

САМООЧИЩАЕМОСТЬ, ЛЕГКИЙ УХОД

Эти технические преимущества обеспечены также специальным водоотталкивающим покрытием, которое наносится на глазурь. Alchemy образует удивительный эффект на поверхности: эта обработка обеспечивает более легкое стекание воды и капель, не допуская их скопления и застоя (эффект лотоса).

 L'élégance unique et les détails exclusifs des lavabos en céramique
 La elegancia única y los detalles exclusivos de los lavabos de cerámica
 Уникальная элегантность и эксклюзивность керамических раковин

L'ineguagliabile design ed eleganza Made in Italy della collezione di lavabi in ceramica, disponibili con finitura lucida o matt, è caratterizzata dai bordi lineari, armonici nelle proporzioni, moderni e sottili, di soli 6 mm di spessore, che garantiscono un'estetica elegante. La gamma è sviluppata fino ai 100 cm di larghezza, e sue due profondità (di 46.5 e 36.5 cm) per adattarsi al meglio a tutti gli ambienti bagno. Inoltre sono unici nel loro genere perché sono disponibili sia con foro troppopieno che senza. L'assenza del foro troppopieno, eliminando interruzioni estetiche conferisce al lavabo un aspetto ancora più armonioso. Lo speciale smalto antibatterico Hatria garantisce ai lavabi la massima igienicità.

The unique elegance and exclusive details of the ceramic washbasins
 The unrivalled Made in Italy design and elegance of the ceramic washbasin, available with glossy or matt finish, is characterized by linear edges, harmonious in proportions, modern and thin, only 6 mm thick, which guarantee an elegant aesthetic. The range is developed up to 100cm in width, and its two depths (of 46.5 and 36.5 cm) are to best adapt to all bathrooms. The washbasins are unique because they are available both with and without overflow hole. The absence of the overflow hole, eliminating aesthetic interruptions, gives the washbasin an even more harmonious appearance. The special Hatria antibacterial glaze guarantees the washbasins maximum hygiene.

Das unvergleichliche Design und die Eleganz der „Made in Italy“ Keramikwaschbecken-Kollektion, die in glänzendem oder mattem Oberflächen erhältlich sind, zeichnen sich durch lineare Kanten aus, die in ihren Maßen harmonisch, modern, dünn, nur 6 mm dick und eine elegante Ästhetik garantieren. Das Sortiment ist bis zu einer Breite von 100 cm und in zwei Tiefen (46,5 und 36,5 cm) erhältlich, um sich an alle Badezimmer anzupassen. Sie sind auch in ihrer Art einzigartig, da sie sowohl mit als auch ohne Überlaufloch verfügbar sind. Das Waschbecken ohne Überlaufloch verleiht ein noch harmonischeres Aussehen. Die spezielle antibakterielle Hatria-Glasur garantiert den Waschbecken maximale Hygiene.

Le design et l'élégance inégalés Made in Italy de la collection de lavabos en céramique, disponibles avec une finition brillante ou mate, se caractérisent par des bords linéaires, harmonieux dans les proportions, modernes et ultra fins, seulement 6 mm d'épaisseur, qui garantissent une esthétique élégante. La gamme est développée jusqu'à 100cm de largeur, et de deux profondeurs (46,5 et 36,5 cm) pour s'adapter au mieux à tous les environnements de salle de bain. Ils sont également uniques en leur genre car ils sont disponibles avec ou sans trou de trop-plein. L'absence de trou de trop-plein, éliminant les interruptions esthétiques, donne au lavabo un aspect encore plus harmonieux. L'émail antibactérien spécial Hatria garantit une hygiène maximale des lavabos.

El inigualable diseño "Made in Italy" y la elegancia del lavabo de cerámica, disponible en acabado brillante o mate, caracterizado por cantos lineales, armoniosos en proporciones, moderno y fino, de tan solo 6 mm de espesor, que garantizan una estética elegante. La gama se desarrolla hasta los 100cm de ancho, y sus dos profundidades (de 46,5 y 36,5 cm) son para adaptarse mejor a todos los baños. Los lavabos son únicos porque están disponibles con y sin rebosadero. La ausencia del rebosadero, eliminando las interrupciones estéticas, confiere al lavabo un aspecto aún más armonioso. El esmalte especial antibacteriano Hatria garantiza la máxima higiene de los lavabos.

Непревзойденный дизайн и элегантность коллекции керамических умывальников «Made in Italy», доступные в глянцевой или матовой отделке, характеризуются прямыми линиями, гармоничные пропорции, современный дизайн с тонкими бортами, толщиной всего 6 мм, которые гарантируют элегантный эстетический вид. Диапазон ширины составляет до 100 см и две глубины (46,5 и 36,5 см), чтобы наилучшим образом адаптироваться к любому варианту ванной комнаты. Они также уникальны в своем роде, потому что доступны как с переливным отверстием, так и без него. Отсутствие переливного отверстия, убирает эстетические недостатки и придает раковине еще более гармоничный вид. Специальная антибактериальная эмаль Hatria гарантирует максимальную гигиену умывальника.

L'offerta Bahia_13 è ulteriormente arricchita da strutture contenitive a cassetti, con 2 profondità e modulari, nelle dimensioni dei lavabi e disponibili in 5 colori naturali. I due cassetti del mobile hanno le sponde in metallo verniciato con guide ad estrazione totale e chiusura ammortizzata per garantire un maggior confort nell'utilizzo. Il fondo interno dei cassetti è rivestito con un materiale effetto pelle, in tinta con la struttura interna, che conferisce pregio e praticità al mobile. In aggiunta, una serie di strutture in metallo con comodi ripiani portaoggetti, disponibili sia a terra e che sospese, le barre portasciugamani, sia frontali che laterali, i sifoni dal design raffinato, regolabili in altezza, disponibili nei colori nero matt e cromo lucido e le pilette in ceramica, offrono soluzioni originali e funzionali per arredare ogni ambiente bagno.

Bahia_13 offer is further enriched by cabinets with drawers, with 2 depths and modular, with the sizes of the washbasins and available in 5 natural colors. The two drawers of the cabinet have sides in painted metal, fully extractable guides and soft closing to ensure greater comfort in use. The internal bottom of the drawers is covered with a leather-effect material, matching the internal structure, which gives value and practicality to the cabinet. In addition, a series of metal structures with comfortable storage shelves, available both floor mounted and wall hung, the towel racks, both front and side, the siphons with a refined design, adjustable in height, available in matt black and glossy chrome and the ceramic drains, offer original and functional solutions to furnish any bathroom.

Das Bahia_13-Angebot wird durch Schubladen mit 2 Tiefen und Baukastensystem in der Größe der Waschbecken und in 5 natürlichen Farben ergänzt. Die beiden Schubladen des Schrankes haben die Seiten aus lackiertem Metall mit vollständig herausziehbaren Führungen mit weichem Schließen, um eine Benutzerfreundlichkeit zu gewährleisten. Der Innenboden der Schubladen ist mit einem Material in Lederoptik in der gleichen Farbe wie die Innenstruktur des Schrankes bedeckt, um Wert und Zweckmäßigkeit zu gewährleisten. Darüber hinaus eine Reihe von Metallkonstruktionen mit bequemen Regalbrettern, die sowohl für den Boden als auch wandhängend erhältlich sind. Diese haben Handtuchhalter sowohl vorne als auch an der Seite und die Siphons mit einem raffinierten Design, höhenverstellbar, in mattem Schwarz und glänzendem Chrom verfügbar sind. Die Keramikabläufe bieten originelle und funktionale Lösungen für jedes Badezimmer.

L'offre Bahia_13 est encore enrichie par des structures de rangement avec tiroirs, à 2 profondeurs et modulables, selon la taille des lavabos et disponibles en 5 coloris naturels. Les deux tiroirs du meuble ont des côtés en métal peint avec des glissières entièrement extractibles et une fermeture douce pour assurer un plus grand confort d'utilisation. Le fond intérieur des tiroirs est recouvert d'un matériau effet cuir, de la même couleur que la structure interne, ce qui donne de la valeur et de la praticité au meuble. En outre, une série de structures métalliques avec des étagères de rangement confortables, disponibles à la fois au sol et suspendues, les porte-serviettes, à l'avant et sur les côtés, les siphons au design raffiné, réglables en hauteur, disponibles en noir mat et chrome brillant et les bondes en céramique offrent des solutions originales et fonctionnelles pour aménager n'importe quel environnement de salle de bain.

La oferta Bahia_13 se enriquece aún más con los armarios con cajones, de 2 profundidades y modulares, con las medidas de los lavabos y disponibles en 5 colores naturales. Los dos cajones del mueble tienen laterales en metal pintado, guías totalmente extraíbles y cierre suave para garantizar una mayor comodidad de uso. El fondo interno de los cajones revestido con un material efecto cuero, a juego con la estructura interna, lo que le da valor y practicidad al mueble. Además, una serie de estructuras metálicas con cómodos estantes de almacenaje, disponibles tanto en suelo como en pared, los toalleros, tanto frontales como laterales, los sifones con un refinado diseño, regulables en altura, disponibles en negro mate y cromo brillo y el desagües cerámicos, ofrecen soluciones originales y funcionales para amueblar cualquier baño.

Предложение Bahia_13 дополнено структурами для хранения с ящиками, с 2 глубинами и модульным размером с умывальником и доступными в 5 натуральных цветах. Два ящика шкафа имеют боковые стороны из окрашенного металла с полностью выдвигаемыми направляющими и мягким закрытием для большего комфорта при использовании. Внутреннее дно ящиков покрыто материалом с эффектом кожи того же цвета, что и внутренняя структура, что придает шкафу дороговизну и практичность. Кроме того, серия металлических конструкций с удобными полками для хранения, доступными как напольные, так и на подвесные версии, штанги для полотенец, как передние, так и боковые, сифоны изысканного дизайна, регулируемые по высоте, доступные в матовом черном и глянцево хромировании и керамические накладки на слив предлагают оригинальные и функциональные решения для оформления любой ванной комнаты.

NEXT

DIAMO UN TAGLIO AL PASSATO
LET'S TAKE A BREAK WITH THE PAST

Un nuovo sistema di scarico più compatto, che permette al sanitario di essere più slanciato e nascondere lo scarico. Si è agito sulla forma in maniera netta, come a volerne tagliare una parte per far intuire che rispetto al passato è accaduto qualcosa. Il concept di Next, nasce dall'esigenza di raccontare, attraverso il design, un'innovazione tecnica unica nel suo genere, che esalta al massimo il risultato estetico della ceramica. Next, l'esaltazione estetica della ceramica che si manifesta in un incrocio di curve sorprendente. La carenatura è completa e nasconde tutto al suo interno, **il sifone scompare e diventa invisibile.**

A new more compact discharge system makes the sanitaryware more streamlined and allows hiding the discharge. The brand-new shape alludes to the fact that something has changed compared to the past. The concept of Next comes from the need to convey a unique technical innovation through design which celebrates the aesthetic nature of ceramic. Next, an aesthetic celebration of ceramic expressed in a meeting of surprising curves. The fairing is complete and hides everything in its interior, **the siphon disappears and becomes invisible.**

Ein kompakteres neues Spülsystem, dank dessen die sanitäre Anlage schlanker wird und der Abfluss verborgen bleibt. Die Form wurde deutlich abgeändert, als wollte man einen Teil abschneiden, damit man erahnen kann, dass es im Vergleich zur Vergangenheit eine Änderung gegeben hat. Das Konzept von Next entspringt dem Bedürfnis, anhand des Designs über eine in ihrer Art einzigartige technische Innovation zu berichten, die das ästhetische Ergebnis der Keramik optimal zur Geltung bringt. Next, die ästhetische Verherrlichung der Keramik, die sich in Form der Überkreuzung erstaunlicher Kurven offenbart. Die komplette Verkleidung verbirgt alles in ihrem Inneren, **der Siphon verschwindet und ist nicht mehr zu sehen.**

Un nouveau système d'évacuation plus compact qui permet aux sanitaires d'être plus élancés et de dissimuler ledit système. L'intervention a eu lieu sur la forme de manière nette, comme pour en supprimer une partie et laisser présager qu'une modification a été faite par rapport au passé. Le concept de Next naît de l'exigence de raconter, à travers le design, une innovation technique unique en son genre, qui exalte au maximum le résultat esthétique de la céramique. Next, l'exaltation esthétique de la céramique se manifeste en un entrelacement surprenant de courbes. Le carénage est complet et cache tout en son intérieur ; **le siphon disparaît et devient invisible.**

Un nuevo sistema de descarga más compacto que le permite al inodoro ser más fino al esconder la descarga. Se ha intervenido directamente en la forma al cortar una parte como para mostrar que ha habido un cambio con respecto al pasado. El concepto de Next nace de la necesidad de querer expresar a través del diseño una innovación técnica exclusiva que exalta al máximo el resultado estético de la cerámica. Next, la exaltación de la cerámica que se manifiesta en un cruce de curvas sorprendentes. La carenatura es completa y lo esconde todo en su interior; **el sifón desaparece volviéndose invisible.**

Новая более компактная система смыва делает конструкцию унитаза менее громоздкой и позволяет спрятать слив. Форма как бы говорит о том, что у нее хотели отнять часть ее, и что с ней в прошлом что-то произошло. Концепция модели Next рождена желанием рассказать посредством дизайна об уникальном в своем роде техническом новшестве, позволившем максимально подчеркнуть эстетический результат керамики. В модели Next эстетика керамики проявляется в удивительном сочетании изогнутых линий. Обтекаемый корпус полностью все скрывает, **и сливной сифон становится невидимым.**

PURE RIM

La tecnologia PURE RIM è estesa a tutte le tipologie di vasi Fusion round : sospeso, filo muro, monoblocco filo muro. Anche il nuovo vaso sospeso "Compact", dalle ridottissime dimensioni, è dotato di questa tecnologia.

PURE RIM technology is available for all the models of the Fusion Round series, either wall-hung, back-to-wall or close-coupled. Even the brand-new wall-hung "Compact" is equipped uniquely with this technology.

Alle unsere Modellen von Fusion (HangeWC; Boden und mit Spuhlkasten inbegriffen) sind mit der Technologie PURE RIM ausgestattet. Auch die neue "Compact", mit sehr kleinen Abmessungen.

La technologie PURE RIM est appliquée sur tous les modèles Fusion, sans exception, que ce soit la version suspendue, au sol ou pack-wc. Egalement la nouvelle version suspendue "Compact" est dotée de cette nouvelle technologie.

La tecnología PURE RIM se extiende a todos los tipos de inodoro Fusion redondo: suspendido, a la pared, monobloque a la pared. El nuevo inodoro suspendido "Compact", con sus dimensiones extremadamente reducidas, está equipada con esta tecnología.

Технология PURE RIM едина для всех типов унитаза Fusion round: подвесной, напольный, моноблок. Также новый подвесной унитаз "Compact" с уменьшенными размерами будет с данной технологией.

LE FIABE

IMMERGERSI IN UN LUOGO MAGICO CHE LASCIA SPAZIO ALL'IMMAGINAZIONE
LOSE YOURSELF IN A MAGICAL WORLD THAT LEAVES ROOM FOR IMAGINATION

Un'idea di progetto a 360° è alla base della ricerca Hatria, che continuamente si evolve per offrire nuove soluzioni coniugando estetica e funzionalità: il design costruisce la forma intorno a sistemi che migliorano la qualità e le performances del prodotto. **PURE FIX®**, il nuovo fissaggio nascosto per vasi e bidet terra filo muro, presente nell'ultima collezione Hatria Le Fiabe, è l'innovazione che permette di avere finalmente anche per i sanitari terra un risultato esteticamente perfetto e pulito, in quanto privi di alcun fissaggio visibile. In combinazione con il **VASO TRASLATO** e il **BIDET APERTO** nella parte posteriore, ideali nelle ristrutturazioni per adattare impianti esistenti.

A 360° project idea lies at the base of Hatria research, which is evolving all the time to offer new solutions that are both beautiful and functional: design builds the shape around systems conceived to improve product quality and performance. **PURE FIX®**, the new concealed fixing element for back-to-wall WCs and bidets, presented in the latest Hatria collection, "Le Fiabe", is an innovative solution that offers a perfectly attractive, clean solution for back-to-wall bathroom fittings, because there are no visible fixing elements. In combination with the **SHIFTED WC** and the **BIDET OPEN** at the back, it is ideal for renovations, to adapt existing fittings.

Eine Projektidee, die alle Aspekte einbezieht, bildet die Grundlage für die Forschung von Hatria, die sich ständig weiterentwickelt, um neue Lösungen unter Kombination der Ästhetik und der Zweckmäßigkeit zu bieten. Das Design stellt die Form rund um Systeme dar, die die Qualität und die Leistungen des Produkts verbessern. **PURE FIX®**, die neue verborgene Befestigung für an die Wand anliegende Stand-Klosettbecken und -Bidets der neuen Kollektion „Le Fiabe“ von Hatria, ist die Innovation, dank der endlich auch die auf dem Boden stehenden sanitären Anlagen ein perfektes, sauberes ästhetisches Ergebnis ohne sichtbare Befestigungen bieten können. In Kombination mit dem **KLOSETTBECKEN MIT VERSETZTEM ABFLUSS** und dem hinten **OFFENEN BIDET** ist es ideal, um im Zuge von Renovierungen an bestehende Anlagen angepasst zu werden.

Une idée de projet à 360° est à la base de la recherche Hatria qui ne cesse d'évoluer pour pouvoir proposer de nouvelles solutions alliant esthétique et fonctionnalité. Le design construit la forme autour de systèmes qui concourent à améliorer la qualité et les performances du produit. **PURE FIX®**, le nouveau système de fixation de sol invisible pour cuvettes de WC et bidets au ras du mur fait partie de la dernière collection d'Hatria « Le Fiabe ». C'est l'innovation qui permet finalement d'avoir des sanitaires au sol avec un résultat esthétiquement parfait et propre, puisqu'aucun système de fixation n'est visible. Combiné avec la **CUVETTE DÉCALÉE** et le **BIDET OUVERT** dos au mur, il est l'idéal dans les rénovations pour adapter les installations déjà existantes.

La investigación de Hatria, que parte de una idea de proyecto 360°, evoluciona constantemente para ofrecer nuevas soluciones que combinen estética y eficiencia; el diseño crea la forma en torno a sistemas que mejoran la calidad y el rendimiento del producto. **PURE FIX®**, la nueva fijación invisible para inodoros y bidés de tierra y contra la pared, presente en la última colección de Hatria "Le Fiabe", es la innovación que permite que sanitarios de tierra también dispongan finalmente de un resultado estéticamente perfecto y limpio sin fijaciones visibles. Junto con el **INODORO VARIABLE** y el **BIDÉ ABIERTO** en su parte posterior, es ideal en reestructuraciones para adaptar instalaciones ya existentes.

Идея проекта на 360° лежит в основе научно-исследовательской работы компании Hatria, которая постоянно развивается, чтобы предложить новые решения, объединив эстетику и функциональность: дизайн создает форму систем, которые улучшают качество и достоинства продукта. **PURE FIX®** – это новая скрытая система монтажа приставных биде и унитазов, представленная в новой коллекции "Le Fiabe" компании Hatria. Являясь инновационной, она позволяет, наконец-то, идеально и чисто устанавливать напольную сантехнику без каких-либо видимых крепежных устройств. Сочетание **УНИТАЗА С ПЕРЕНОСНЫМ ВЫПУСКОМ** и **ОТКРЫТОГО** в задней части **БИДЕ** будет идеальным для проведения ремонтных работ с целью установки их в уже существующую систему.

I piatti doccia Petra_H3 Ardesia sono realizzati con un'esclusiva tecnologia capace di offrire lo stesso risultato estetico della pietra ardesia utilizzando la ceramica, il materiale più duraturo e affidabile nel tempo per eccellenza. L'innovativo processo tecnologico ad alta pressione consente di ottenere un prodotto di elevatissima qualità utilizzando solo materiali naturali, in contrapposizione netta con i composti sintetici e le resine che non riescono, per propria natura, a garantire performance consistenti nel tempo. Lo smalto ceramico antibatterico Hatria rende particolarmente igienico il piatto doccia, facile da pulire (anti-macchia, testato UNI 4543, blu dimetilene, inchiostro, tintura di iodio e permanganato di potassio) e conferisce caratteristiche nettamente superiori in termini di durata e resistenza rispetto alle superfici in resina (che contrariamente sono porose, e potrebbero tendere ad assorbire agenti esterni). I laboratori Hatria hanno infine arricchito lo smalto di Petra_H3 Ardesia con proprietà anti-scivolo (aderenti alle normative Europee DIN 51097) per assicurare la massima sicurezza durante l'utilizzo.

Petra_H3 Ardesia shower trays are made with an exclusive technology capable of offering the same aesthetic result as slate stone using ceramic, the most durable and reliable material par excellence over time. The innovative high-pressure technological process makes it possible to obtain a high quality product using only natural materials, in clear contrast with synthetic composites and resins that cannot, by their very nature, guarantee consistent performance over time. The Hatria antibacterial ceramic glaze makes the shower tray particularly hygienic, easy to clean (anti-stain, UNI 4543 tested, dimethylene blue, ink, iodine dye and potassium permanganate) and confers clearly superior characteristics in terms of durability and resistance compared to resin surfaces (which, on the contrary, are porous, and could tend to absorb external agents). Finally, the Hatria laboratories have enriched the Petra_H3 Ardesia glaze with anti-slip properties (in compliance with the European DIN 51097 standards) to ensure maximum safety during use.

Petra_H3 Ardesia Duschwannen werden mit einer exklusiven Technologie hergestellt, die das gleiche ästhetische Ergebnis wie Schieferstein mit Keramik erzielen kann, dem haltbarsten und zuverlässigsten Material schlechthin im Laufe der Zeit. Das innovative technologische Hochdruckverfahren ermöglicht es, ein Produkt von höchster Qualität nur mit natürlichen Materialien zu erhalten, im Gegensatz zu synthetischen Verbundwerkstoffen und Harzen, die naturgemäß nicht in der Lage sind, über einen längeren Zeitraum eine gleichbleibende Qualität zu gewährleisten. Die antibakterielle Keramikglasur von Hatria macht die Duschwanne besonders hygienisch, leicht zu reinigen (Anti-Fleck UNI 4543 getestet, Dimethylenblau, Tinte, Jodfarbstoff und Kaliumpergament)

und bietet deutlich überlegene Eigenschaften hinsichtlich Haltbarkeit und Beständigkeit im Vergleich zu Harzoberflächen (die im Gegenteil porös sein und könnten dazu neigen externe Mittel zu absorbieren). Schließlich haben die Hatria-Labors die Petra_H3 Ardesia-Glasur mit rutschfesten Eigenschaften (gemäß den europäischen Normen DIN 51097) angereichert, um maximale Sicherheit während des Gebrauchs zu gewährleisten.

Les receveurs de douche Petra_H3 Ardesia sont fabriqués avec une technologie exclusive capable d'offrir le même résultat esthétique que la pierre d'ardoise en utilisant la céramique, le matériau par excellence le plus durable et le plus fiable dans le temps. Le procédé technologique innovant à haute pression permet d'obtenir un produit de très haute qualité en utilisant uniquement des matériaux naturels, en contraste frappant avec les composites synthétiques et les résines qui sont incapables, par leur nature même, d'assurer des performances constantes dans le temps. L'émail céramique antibactérien Hatria rend le receveur de douche particulièrement hygiénique, facile à nettoyer (anti-taches, testé UNI 4543, bleu de méthylène, encre, colorant iodé et permanganate de potassium) et confère des caractéristiques nettement supérieures en termes de durabilité et de résistance par rapport aux surfaces en résine (qui, au contraire, sont poreuses, et pourraient ont tendance à absorber les agents externes). Enfin, les laboratoires Hatria ont enrichi l'émail Petra_H3 Ardesia de propriétés antidérapantes (adhérant aux normes européennes DIN 51097) pour assurer une sécurité maximale lors de l'utilisation.

Los platos de ducha Petra_H3 Ardesia están fabricados con una tecnología exclusiva capaz de ofrecer el mismo resultado estético que la piedra pizarra utilizando cerámica, el material más duradero y fiable por excelencia en el tiempo. El innovador proceso tecnológico de alta presión permite obtener un producto de alta calidad utilizando únicamente materiales naturales, en claro contraste con los componentes sintéticos y resinas que no pueden, por su propia naturaleza, garantizar un rendimiento constante en el tiempo. El esmalte cerámico antibacteriano Hatria hace que el plato de ducha sea especialmente higiénico, fácil de limpiar (anti manchas, probado UNI 4543, azul de dimetileno, tinta, colorante de yodo y permanganato de potasio) y le confiere unas características claramente superiores en cuanto a durabilidad y resistencia a las superficies de resina (que, por el contrario, son porosas, pudiendo tender a absorber agentes externos). Finalmente, los laboratorios de Hatria han enriquecido el esmalte Petra_H3 Ardesia con propiedades antideslizantes (en cumplimiento de las normas europeas DIN 51097) para garantizar la máxima seguridad durante el uso.

Душевые поддоны Petra_H3 Ardesia изготовлены по эксклюзивной технологии, способной обеспечить такой же эстетический результат, как и сланцевый камень, с использованием керамики, самого прочного и надежного материала даже с течением времени. Инновационный технологический процесс высокого давления позволяет получить продукт высочайшего качества, используя только натуральные материалы, в отличие от синтетических композитов и смол, которые по самой своей природе не могут обеспечить стабильные характеристики с течением времени. Антибактериальная керамическая эмаль Hatria делает душевой поддон особенно гигиеничным, легким в уходе (защищает от пятен испытано UNI 4543, диметиленовый синий, чернила, йодный краситель и калиевый пергмент) и обеспечивает явно лучшие характеристики с точки зрения долговечности и устойчивости по сравнению с полимерными поверхностями (которые, напротив, пористы и имеют свойство поглощать внешние агенты). Наконец, лаборатории Hatria обогатили эмаль Petra_H3 Ardesia противоскользящими свойствами (в соответствии с европейскими стандартами DIN 51097), чтобы обеспечить максимальную безопасность во время использования.

Nasce una nuova generazione di piatti doccia in ceramica che offre un'estrema flessibilità, grazie ai bordi smaltati sui 4 lati che garantiscono l'adattabilità in ogni tipologia di area doccia. Maggiormente, e grazie all'impasto sviluppato nei laboratori di Hatria, il piatto doccia Petra_H3 Ardesia è riducibile, quindi può essere ordinato tagliato su misura, per adattarsi con facilità a qualsiasi progetto bagno. Un valore aggiunto che traduce lo stile sartoriale tipico del Made in Italy nel linguaggio della ceramica, dando vita a una linea di piatti doccia versatile, di facile installazione e che diventi protagonista dell'ambiente bagno grazie ad un design che sposa le ultime tendenze dell'interior design.

A new generation of ceramic shower trays is born that offers extreme flexibility, thanks to the glaze edges on the 4 sides that provide adaptability in any type of shower area. More, thanks to the ceramic body developed in the Hatria laboratories, the Petra_H3 Ardesia shower tray is reducible, so it can be ordered with customized cut, to easily adapt to any bathroom project. An added value that translates the tailored style typical of Made in Italy into the language of ceramics, giving life to a line of versatile, easy-to-install shower trays and becoming the protagonist of the bathroom thanks to a design that marries the latest interior trends design.

Es entsteht eine neue Generation von Duschwannen aus Keramik, die dank der emaillierten Kanten an den 4 Seiten, die Anpassungsfähigkeit in jeder Art von Duschbereich gewährleisten, extreme Flexibilität bietet. Noch wichtiger ist, dass dank der in den Hatria-Labors entwickelten Mischung die Duschwanne Petra_H3 Ardesia kürzbar ist, sodass sie zugeschnitten werden kann, um sich problemlos an jedes Badezimmerprojekt anpassen zu können. Ein Mehrwert, der den für Made in Italy typischen Modestil in die Sprache der Keramik übersetzt und eine Reihe vielseitiger, einfach zu installierender Duschwannen zum Leben erweckt, die dank eines Designs, das die neuesten Trends vereint, zum Protagonisten des Badezimmers werden Innenarchitektur.

Une nouvelle génération de receveurs de douche en céramique est née, elle offre une flexibilité extrême, grâce aux bords émaillés sur les 4 côtés qui garantissent l'adaptabilité dans tout type de zone de douche. Plus important encore, grâce au mélange développé dans les laboratoires Hatria, le receveur de douche Petra_H3 Ardesia est réductible, il peut donc être commandé sur mesure, pour s'adapter facilement à tout projet de salle de bain. Une valeur ajoutée qui traduit le style vestimentaire typique du Made in Italy dans le langage de la céramique, donnant vie à une ligne de receveurs de douche polyvalents et faciles à installer qui deviennent le protagoniste de la salle de bain grâce à un design qui épouse les dernières tendances en matière de design d'intérieur.

Nace una nueva generación de platos de ducha cerámicos que ofrecen una flexibilidad extrema, gracias a los cantos vidriados en los 4 lados que aportan adaptabilidad en cualquier tipo de zona de ducha. Además, gracias al cuerpo cerámico desarrollado en los laboratorios Hatria, el plato de ducha Petra_H3 Ardesia es reducible, por lo que se puede pedir con corte personalizado, para adaptarse fácilmente a cualquier proyecto de baño. Un valor añadido que traduce el estilo sastrero típico del Made in Italy al lenguaje de la cerámica, dando vida a una línea de platos de ducha versátiles y fáciles de instalar y convirtiéndose en protagonista del baño gracias a un diseño que casa con el interior más actual, diseño de tendencias.

Рождение нового поколения керамических душевых поддонов, обладающих исключительной гибкостью благодаря эмалированным краям с 4 сторон, которые гарантируют адаптируемость к любому типу душевой зоны. Что еще более важно, благодаря смеси, разработанной в лабораториях Hatria, душевой поддон Petra_H3 Ardesia можно уменьшить, поэтому его можно обрезать по размеру, чтобы легко приспособить к любому проекту ванной комнаты. Дополнительная ценность, которая переводит стиль одежды, типичный для Made in Italy, на язык керамики, давая жизнь линейке универсальных, простых в установке душевых поддонов, которые становятся главным героем ванной комнаты благодаря дизайну, сочетающему в себе последние тенденции в дизайн интерьера.

Grazie alla sua facilità di taglio, è possibile adattare il piatto per misure speciali salvando colonne, muretti o angoli esistenti all'interno della casa.

Thanks to its ease of cutting, the shower tray can be adapted to special sizes to save existing columns, low wall or corners inside the house.

Das Material lässt sich leicht zuschneiden, die Duschplatte kann so auch an besondere Maße angepasst werden, auf diese Weise können bereits bestehende Säulen oder Ecken beibehalten werden.

Grâce à sa facilité de coupe, il est possible d'adapter le receveur à des dimensions spéciales en conservant les colonnes, muret ou les angles qui existent déjà à l'intérieur de la maison.

Gracias a la facilidad de corte, es posible adaptar el plato de ducha a medidas especiales, sin modificar columnas, murete o esquinas existentes de la casa.

Благодаря легкости обрезки поддон может быть адаптирован к особым размерам, что позволяет сохранять целыми колонны, низкая стена или углы, существующие в помещении.

ABITO

UN NUOVO ABITO PER IL BAGNO CONTEMPORANEO
A NEW OUTFIT FOR THE CONTEMPORARY BATHROOM

Il design della forma incontra l'eccellenza di una tradizione ceramica che mantiene viva la ricerca estetica e l'innovazione tecnologica. Da qui nasce una rivoluzionario concetto che rende i sanitari veri e propri complementi di arredo da integrare con versatilità e leggerezza a qualsiasi ambiente bagno. Un sistema sofisticato, ma semplice nell'utilizzo, permette di sostituire la carena di vaso e bidet scegliendo tra una gamma selezionata di colori, studiati per adattarsi a stili differenti che lasciano libero spazio alla creatività di ognuno, per costruire il proprio bagno ideale.

Finely designed forms meet the excellence of a vibrant ceramics tradition of exciting styling and technological innovation. The result is a revolutionary concept that makes sanitary fittings genuine interior design features, that blend into any bathroom with versatility and lightness of touch. A sophisticated but user-friendly system allows the casings of WCs and bidets to be replaced, with a choice from an exquisite range of colours, selected to suit different styles and give everyone the creative freedom to build up their own ideal bathroom.

Formschönes Design trifft auf erstklassige keramische Tradition, die Ästhetik und HighTech in den Mittelpunkt stellt. Daraus entsteht ein bahnbrechendes Konzept, das Sanitäreinrichtungen zu regelrechten Einrichtungsobjekten avancieren lässt, die sich durch ihre Vielseitigkeit leicht in jedes Badezimmer einfügen. Ein raffiniertes System ermöglicht es, WC- und Bidetverkleidungen einfach und problemlos zu erneuern. Die ausgesuchte Palette an reizvollen Farben bietet für jeden Stil das Richtige und genügend Gestaltungsfreiraum für das eigene Traumbad.

Le design de la forme épouse l'excellence d'une tradition céramique qui alimente la recherche esthétique et l'innovation technologique. Telles sont les bases d'un concept révolutionnaire qui transforme les sanitaires en véritables accessoires de décoration qui s'inscrivent, en douceur et en légèreté, dans tous les types de salles de bains. Un système sophistiqué, mais simple à utiliser, permet de remplacer le carénage de la cuvette et du bidet. Les couleurs élégantes ont été mises au point pour s'adapter à des styles multiples et laisser ainsi libre cours à la créativité personnelle afin de composer la salle de bains idéale.

El diseño de la forma se alía con la excelencia de una tradición cerámica que mantiene vivas la búsqueda estética y la innovación tecnológica. De ahí nace un concepto revolucionario que convierte los sanitarios en verdaderos complementos decorativos que integrar con versatilidad y ligereza en el espacio del baño. Un sistema sofisticado, pero de uso sencillo, permite substituir la carena del inodoro y el bidet eligiendo dentro de una gama selecta de refinados colores, estudiados para adecuarse a diferentes estilos; de este modo, se deja campo abierto a la expresión personal de la creatividad para que cada uno construya su baño ideal.

Дизайнерские формы сливаются с совершенством керамических традиций, продолжая эстетические исследования и технологическую новизну. Из этих предпосылок рождается революционно новых подход, благодаря которому сантехника становится самым настоящим предметом оформления, легко и универсально вписывающимся в интерьер любой ванной комнаты. Изысканная, но простая в применении система позволяет заменить наружный корпус унитаза и биде, выбирая их из тщательно продуманного ассортимента цветов, созданного с тем, чтобы удовлетворять разные стили и оставлять место индивидуальному творчеству в подборе идеальной ванной комнаты.

YOU & ME

FORME IDEALI PER SPAZI CONTENUTI
IDEAL SHAPES FOR SMALL SPACES

Le ridotte dimensioni di You&Me ne fanno la soluzione ideale per ambienti particolarmente piccoli: ogni singolo elemento risulta funzionale alla costruzione di un bagno completo a partire dall'ingombro minimo di un M².

The reduced dimensions of You&me make it an ideal solution for particularly small areas: every element is functional in the construction of a complete bathroom, starting from the minimum volume of 1 sq. m.

YOU & ME Die kleine Masse sind eine ideale Lösung für ein besonders kleine Raum: jedes Element ist geeignet für dem Bau eines kleinen Badezimmer, auch für einen Raum von nur 1 qm.

Les dimensions réduites de You&Me en font la solution idéale pour des espaces très exigus : chaque élément compose en effet une salle de bain complète à partir de l'encombrement minimum d'un M².

Las medidas reducidas de You&Me lo convierten en la solución ideal para cuartos de baño muy pequeños: cada elemento es funcional a la construcción de un baño completo a partir de la medida mínima de un m².

Уменьшенные размеры сантехники серии You&Me делают ее идеальным решением для малогабаритных помещений: каждый отдельный элемент функционально участвует в создании полностью укомплектованной ванной комнаты даже на площади в 2 кв. метра.

PROTAGONISTA UN'ELEGANZA SENZA TEMPO
THE PICTURE OF TIMELESS ELEGANCE

Elementi di forte plasticità si accompagnano a linee curve in sottile equilibrio, dando vita a una particolare atmosfera oscillante tra il materico e l'etereo.

Strongly plastic elements appear alongside curved lines in a subtle equilibrium, creating a unique atmosphere midway between the material and the aerial.

Elemente starker Plastizität werden von geschwungenen Linien in subtiler Balance begleitet, die in einer bestimmten Momente eine Atmosphäre im Leben geben und zwischen dem Material und der Ebene schwingen.

Des éléments très plastiques et des lignes courbes en un mince équilibre créent une atmosphère spéciale qui oscille entre la matière et l'aérien.

Los elementos intensamente plásticos se unen a los trazos curvos formando un delicado equilibrio que da vida a un ambiente especial que oscila entre lo material y lo etéreo.

Чрезвычайно пластичные элементы сочетаются с закругленными линиями в тонком равновесии, вдыхая жизнь в особенную атмосферу, колеблющуюся между материальным и воздушным.

DOLCEVITA

COMBINAZIONE TRA CLASSICO E CONTEMPORANEO
COMBINATION OF CLASSIC AND CONTEMPORARY

La linea Dolcevita riscopre la classicità come valore che ritorna a vivere nel presente, filtrato dalla tecnologia e da nuove scelte progettuali.

The Dolcevita line rediscovers classical values, giving them new life for the present, filtered through technology and fresh design strategies.

Dolcevita hat eine klassische Form die in der Vergangenheit bringt aber noch heute aktuell ist, und in der heutigen Technologie filtriert ist.

La ligne Dolcevita redécouvre le classique comme valeur qui recommence à vivre dans le présent, filtrée par la technologie et par de nouveaux choix conceptuels.

La línea Dolcevita revive el estilo clásico como valor que regresa al presente, filtrado a través de la tecnología y de unas nuevas posibilidades de diseño.

Линия Dolcevita вновь открывает классичность, как ценность, возвращающуюся к жизни в настоящем, отфильтрованную технологией и новыми проектными выборами.
