BOSSINI® Made in Italy Since 1960

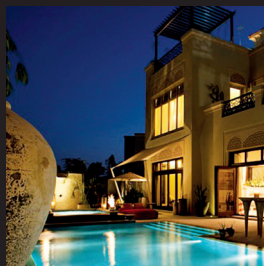

Growing means looking ahead with professionalism and sense of competition: this is the philosophy characterising the Bossini history. Bossini has been producing showers and accessories since 1960. Quality, design, research and innovation are the basis for every planning and production. Bossini has achieved a prestigious place in the world, where Italian design has always been considered the one in good taste and elegance. Thanks to almost sixty years of experience Bossini succeeded in giving to the shower the personality and character that the most intimate room of the house deserves, since the bathroom is the new frontier of home wellness.

RETROFIT for Dream shower heads - No Light

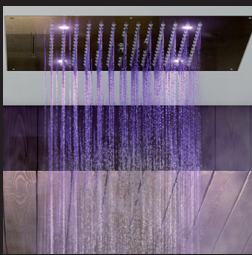

Dream Multifunction

To double the pleasure of your shower, Dream is now available in different spray modes and offers 2-3-4 functions ceiling-mounted shower head: in addition to the traditional wide-rain jet, you can now select a soft nebulized jet, a powerful cascade, a rain waterfall spray or a natural kneipp jet. A multisensorial experience to explore the new frontiers of well-being: this is the emotional shower that Bossini proposes for your day-spa.

All Bossini Dream ceiling-mounted shower heads have a built-in air suction duct in the water distribution chamber. This device, patented by Bossini, allows you to immediately discharge the residual water from the distribution chamber when you close the mixer, thereby minimizing water stagnation inside the showerhead.

For technical detail please visit www.bossini.it

Wide rain spray

Cascade spray

A large-scale digital art installation featuring a grid of blue spheres and light beams. The spheres are arranged in a regular pattern on a dark, slightly curved surface. From each sphere, a bright blue beam of light extends downwards, creating a dense forest of light. The beams are slightly blurred, suggesting motion or a long exposure. The overall effect is a mesmerizing, futuristic display of light and geometry.
